Assigning Group Work in Google Classroom

First thing you need is an activity that we are going to assign to your groups so that your students may collaborate.
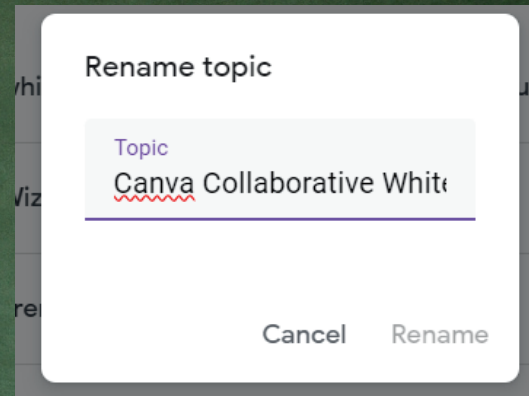

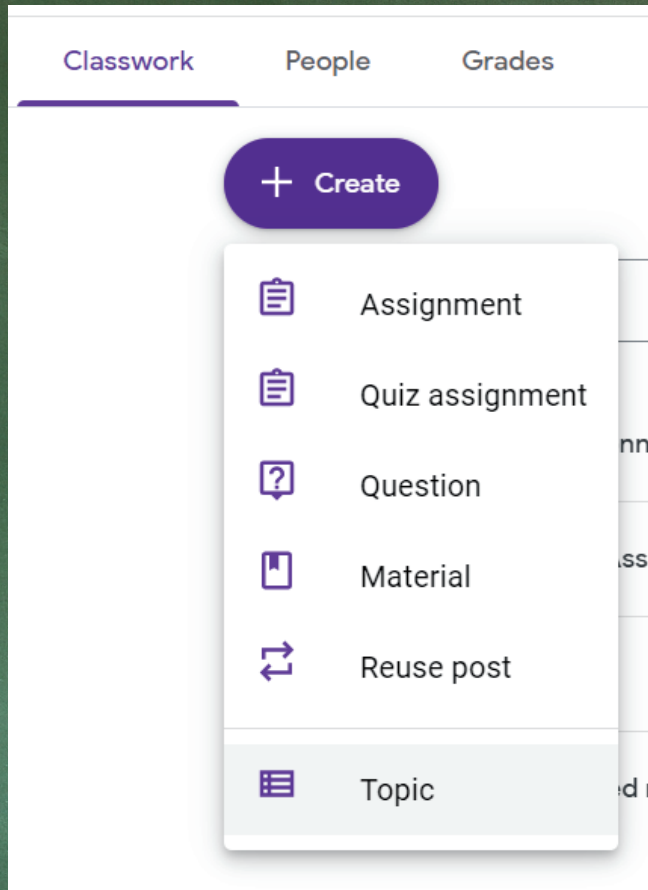

BOOK CREATOR

You'll probably have a template that you want to share with each group. You will usually need a separate template copy for each group.

Once you have your activity template and or directions prepared we can head to Google Classroom to assign it to your different groups.

LET'S GO

To stay organized in Google Classroom I would create a Group
Project Topic to post your assignments in.

Give your assignment a title, differentiating it with the group number. Then when you attach your template make sure to set the file to "Students Can Edit File". This will give them all access to the same file. This is totally different than most things we post in Google Classroom.

Title
Collaborative Story Map Project: Group 1

Instructions (optional)
Hey Group 1, Welcome to your team.
On this team is:
Bobby
Hank
Peggy
Luanne
Dale

Below is your group's Google Drawing File. On this file you will work with your team to build a story map.
